

AI WEBSITE COPY GENERATOR – TASK1

Business Name: Glow Beauty Salon

Location: Hyderabad

Business Type: Beauty Salon

TOOL USED: ChatGPT

PROMPT USED:

Act as a professional website copywriter.

Create high-converting website content for a local business.

Business Name: Glow Beauty Salon

Location: Hyderabad

Business Type: Beauty Salon

Generate:

1. Homepage copy:

- Headline (clear value proposition)
- Subheadline (target audience + benefit)
- Short introduction

2. Services page:

- List 3-5 services
- Describe each service
- Include why customers should choose this business

3. Call-to-action (CTA):

- Booking CTA
- Urgency-based CTA
- Trust-building CTA

Tone:

- Friendly, welcoming, and confident
- Simple and easy to understand

Make the content realistic, engaging, and ready to use on a real website.

GENERATED OUTPUT:

Generated using structured prompt for high-conversion website copy.

Homepage Copy

Headline (Value Proposition):

Glow With Confidence at Glow Beauty Salon

Subheadline (Audience + Benefit):

Expert beauty care for women in Hyderabad who want to look radiant, feel confident, and relax in a premium salon experience.

Trust-Building CTA:

Join hundreds of happy clients who trust Glow Beauty Salon for their beauty needs.

EXPLANATION:

This project uses prompt engineering to generate high-quality website copy for a local business. The structured prompt includes business details, tone, and output format, which helps produce clear, engaging, and conversion-focused

content. This system can be reused for different businesses by modifying the inputs.
